

To get your additional IP's allocated, please open a new ticket to the sales department with detailed justification (form provided below). We require justification according to ARIN's guidelines. You would be required to fill out the IP justification form below. These are ARIN rules and not ours.

Provide detailed information on how these IP addresses will be utilized. It is not acceptable to provide information such as "I want my sites on different IPs" or "I have multiple customers who want their own IP"

IP Address Justification Form

- Overview

The completion of this form is required when requesting additional IP addresses greater than:

- The initial /29 (5 usable) allocated to your dedicated server
- The initial /32 (1 usable) allocated to your VPS or Cloud service

Proaxxs, LLC. strictly observes the policies of American Registry for Internet Numbers (ARIN), Réseaux IP Européens (RIPE) or other Regional Internet Registrars (RIR). We require all customers to provide written justification for any additional IP allocations requested beyond the initial assignment. This justification is needed in order to demonstrate to ARIN or RIPE that IP allocations assigned to Proaxxs are being used efficiently.

- Justification Policy

Proaxxs will ONLY allocate IPs in cases where name-based hosting is not possible because of technological restrictions not yet overcome (e.g. SSL). IPs may not be used for any purpose that violates Proaxxs acceptable use policy (AUP) or terms of service (TOS). If your additional IP request can be justified, we will assign the allocation to you. In order to qualify, the following information must be provided:

- Number of IPs needed
- If you have a previous allocation for this service, you must demonstrate 80% utilization, provide the following

Information:

- o Existing server name
- o Main server IP address
- o Total number of IPs assigned to the server
- o Total number of IPs actively used by domain(s)
- o Total number of IPs not actively used by domain(s)

o List of currently assigned IP addresses, include how each one is utilized and its domain name

- Describe the purpose of EACH IP address requested
- Verifiable domain for EACH IP address requested

Each request is thoroughly reviewed before this order will be approved. If this request is for more than a /27 (32 IP addresses), it may take up to 48 hours to complete this request.

IP Justification Form (copy and paste the below completed form into "Comments/Requests" section of order form to expedite your order)

=====

Company Web address:

Company Name:

Address:

City:

State/Providence:

Zip Code:

Phone:

Email:

1. Provide the server host name:

2. Server's primary IP address:

3. Current IP address space utilization:

a. Total number of IP address(es) assigned to this server:

b. Total number of IP address(es) actively used by domains on this server:

c. Total number of IP address(es) not actively used by domains on this server:

d. List each currently assigned IP address, how it's currently used and by which domain

name:

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.
- 7.
- 8.

Example:

1. 12.345.567.89 - www.exampledomain.com - SSL eCommerce site
2. 12.345.567.90 - mail.somedomain.com - mailserver for

somedomain.com

Feel free to add additional lines as needed

Note: 80% of your IP space must be utilized before applying for additional allocations.

4. Number of additional IP address requested:
